

Dharanidharan D

Full Stack AI Engineer & Autonomous Agent Developer

Email: dharanidharan.ai@example.com | Phone: +1 (555) 234-8901 | Location: San Francisco, CA / Hybrid
LinkedIn: <https://linkedin.com/in/dharanidharan-ai> | GitHub: <https://github.com/dharanidharan-dev>

PROFESSIONAL SUMMARY

Full Stack AI Engineer specializing in autonomous agent architectures, multi-agent systems, browser automation with Stagehand/Playwright, and Model Context Protocol (MCP) integrations. Passionate about Human-in-the-Loop AI safety and real-time streaming interfaces.

TECHNICAL EXPERTISE

Languages: Python, TypeScript, JavaScript, SQL, HTML5, CSS3

Frameworks & Backend: FastAPI, Next.js 14, React, Node.js, Starlette, AsyncIO, Uvicorn, Tailwind CSS

AI & Autonomous Agents: Stagehand SDK, Anthropic Claude 3.5 Sonnet API, Model Context Protocol (MCP), Playwright, Chrome DevTools Protocol (CDP), LangChain, LlamaIndex, Function Calling & Tool Use, Human-in-the-Loop (HITL) Guardrails

DevOps & Protocols: Docker, Docker Compose, Git, GitHub Actions, WebSockets, Server-Sent Events (SSE), ReportLab, PyPDF

PROFESSIONAL EXPERIENCE

AI Engineer & Founder — *SIVI Project / Team Ackerz* (2025 - Present)

- Architected SIVI: an autonomous browser agent that automates repetitive web workflows with Claude 3.5 Sonnet, Stagehand, and MCP.
- Implemented real-time token-level reasoning streaming and live browser viewport synchronization over WebSockets.
- Engineered a zero-bypass Human-in-the-Loop (HITL) safety layer preventing unauthorized destructive actions.
- Reduced application completion time from 2-3 hours down to 2-3 minutes with 99.4% locator accuracy.

Full Stack AI Intern — *Applied AI Labs* (2024 - 2025)

- Built high-throughput FastAPI microservices consuming streaming LLM tool-calling APIs.
- Designed interactive Next.js dashboards featuring real-time canvas visualizations and telemetry.
- Integrated Model Context Protocol (MCP) clients to index and retrieve local documents for agent contexts.

FEATURED PROJECTS

SIVI: Autonomous Agent for Everyday Apps | [Stagehand](#), [Claude 3.5 Sonnet](#), [FastAPI](#), [Next.js](#), [MCP](#), [WebSockets](#)

- Autonomous browser agent that parses web pages, retrieves local credentials/resumes via MCP, fills multi-step application forms, and provides real-time streaming reasoning with HITL approval gates.

Cleanroom Compliance Sentinel | [Python](#), [Computer Vision](#), [Deep Learning](#), [Streamlit](#)

- Real-time compliance monitoring system utilizing visual detector pipelines and temporal state smoothing.

EDUCATION

B.Tech in Artificial Intelligence & Data Science — Institute of Technology (2026) — GPA: **3.92 / 4.0**
